

# Closing Remarks

SILVERLINING FORMATION  
WORKSHOP BY TRESURER,  
ANDREA JEAN LOUIS

EDEN BLEU

DEC 13, 2022

Good afternoon everyone,

Just like that we have reached the end of the silver lining project 2022

On behalf of the UNYS team I would like to express deep gratitude to all of our excellent presenters, guest speakers, participants and members for making this workshop such a memorable. It fills me with joy to see what was once a vision on paper turn into a reality.

I hope and believe that what you have learned today will not be left behind as you leave the room to make your way back to your daily lives. I hope that in every step you take from here on you can wholeheartedly say that you are that bit closer to finding your purpose and living your truth.

Everything you have learned over the past two days was not from an overnight lesson that came to these speakers. It was years of perfecting their craft and years of not giving up so that they can stand in front of you today and inspire your young minds with their wisdom. As I stand in front of a room of future ministers, mayors, decision makers and who knows even a future president, I feel at ease knowing that the future of my country lies in your very capable hands.

In your journey always remember to be grateful for all the help you get along the way, for all the people you meet and all of the challenges you faced for that is what shaped into the person you are today and the person you are yet to be.

And of course a huge thank you goes to the grants committee for their continuous support with funding.
